

# Wish you could help calm anxiety for your child?

## Now enrolling: the CALM study

If you have a child 7 to 17 years old diagnosed with moderate to severe generalized anxiety disorder (GAD), he or she may be eligible for the CALM clinical study.

Protocol number: SCT-MD-60

## To be eligible for this study, participants must be:

- 7 to 17 years of age
- Diagnosed with GAD of moderate or greater severity
- Willing and able to comply with the study visit schedule and all study treatments

This is not a complete list of study requirements. The study doctor will review the full requirements with you.
