

# The Bone Center at Kennedy Krieger Institute

## Who We Are

The Bone Center at Kennedy Krieger Institute provides a comprehensive approach to the diagnosis and treatment of bone disorders in children and adults, providing a solid foundation for patient care. Our team of experts uses the latest advances in the measurement of bone density and new therapeutic treatment options.

## Who We Serve

We see patients with a variety of disorders and diagnoses, including:

- Idiopathic osteoporosis in children and young adults
- Unexplained frequent fracture syndromes
- Osteopenia due to glucocorticoid use, cerebral palsy, spina bifida, spinal cord injury, immobilization, post-chemotherapy or celiac disease
- Mineral disorders such as vitamin D deficiency, hypophosphatasia and hypophosphatemic syndromes
- Genetic disorders such as osteogenesis imperfecta, fibrous dysplasia and Rett syndrome

## Our Team

Patient care is provided by an interdisciplinary team that comprises specialists in the following fields:

- Clinical genetics
- Genetic counseling
- Orthopedics
- Physical medicine and rehabilitation
- Physical therapy

## Our Treatment Approach

We are equipped with the latest technology, which allows us to offer a variety of diagnostic services, including:

- Complete bone density assessment
- Analysis of bone biomarkers (serum-C-telopeptide, osteocalcin, bone-specific alkaline phosphatase)
- Genetic DNA analysis using multiple state-of-the-art technologies

We offer a variety of treatment options:

- Nutritional modification
- Appropriate calcium and vitamin supplementation
- Oral and intravenous bisphosphonates
- Forteo® (teriparatide)
- Physical Therapy

Baltimore, MD 21205

Kennedy Krieger Institute recognizes and respects the rights of patients and their families and treats them with courtesy and dignity. Kennedy Krieger Institute provides care that preserves cultural, psychosocial, spiritual and personal values, beliefs and preferences. Care is free from discrimination based on age, race, ethnicity, religion, culture, language, physical or mental disability, socioeconomic status, sex, sexual orientation, and gender identity or expression, including transgender. We encourage patients and families to become active partners in their care by asking questions, seeking resources and advocating for the services and support they need. © 2019 Kennedy Krieger Institute 02/2019

We are all born with great potential.  
Shouldn't we all have the chance to achieve it?
