# Online research opportunity

## Ages 12-36 months

Child development researchers at Kennedy Krieger Institute are studying a new social communication screening tool for children ages 12-36 months

### What is involved?

- Brief online questionnaire about your family (15 minutes)
- Online developmental screeners (approximately 1 hour)
- Telehealth developmental assessment with you and your child, and feedback with a developmental specialist (approximately 2 hours)

For more information, please call (877)-850-3372 or email [reach@kennedykrieger.org](mailto:reach@kennedykrieger.org) or follow: [kennedykrieger.org/VGCR](https://kennedykrieger.org/VGCR) or aim your smartphone's camera ← here to be directed to the study website
