

Kennedy Krieger Institute**Participate in a Noninvasive Research Study
to Explore Pain in Individuals With and
Without Cerebral Palsy**

Kennedy Krieger is seeking individuals to participate in a research study. The goal of the study is to identify risk factors in people with cerebral palsy (CP). All participation is done virtually.

Who is eligible?

- Individuals ages 8 and older, and/or their caregivers, with cerebral palsy
- Individuals ages 8 and older, and/or their caregivers, without a neurologic or developmental diagnosis

What is involved?

- Completion of online questionnaires that take between 30 and 60 minutes to complete. The questions will be about medical diagnoses, quality of life and other factors that might influence pain. The questionnaires can be completed at your convenience.

Each participant will receive \$25 for completing all the questionnaires.
